

Description:

This model is ideal for industrial applications where standard 4-20mA output instrumentation is available. This equipment has 4 independent inputs, and its scale is fully configurable for each input.

Easy installation:

Its Plug and Play installation allows the user to install and configure the equipment in a straightforward manner.

Dimensions (H x W x D):

12cm x 17.5cm x 5cm

Technical Specifications:

4 independent inputs, no voltage output, the inputs are closed-loop, and the instruments must be independently powered. Ideal for industrial and production applications.

Applications:

- Mining
- Production sector
- Food sector
- Industrial sector

Variables:

Analog inputs 4-20mA
