Fracttal Sense
RH TEMP

Description:

The Fracttal Sense RH Temp allows readings of humidity, environment, and temperature under all conditions. Its micro-filtered coating enables efficient performance in delicate and hostile environments. It has a powerful processor that allows for quick data transmission to Fracttal One.

Easy Installation:

Its Plug and Play installation allows the user to install and configure the equipment in a straightforward manner.

Extension:

This device allows for the attachment of an additional temperature sensor capable of measuring temperatures ranging from -55°C to 150°C (probe), ideal for high-performance applications

Dimensions (H x W x D):

12cm x 17.5cm x 5cm

Technical Specifications:

Module with 2 digital output sensors for acquiring environmental data (Temperature and Humidity) with a working range of:

· Ambient Temperature: -10°C to 55°C
· Probe Temperature: -55°C to 150°C
· Humidity: 0 to 100%
· Transmission Distance: up to 20 meters
· Low power consumption

Applications:

· Medical sector
· Agro-industrial
· Mines
· Hotels
· Food sector

Variables:

°C
